AGE OF BARBARISM

I. HISTORICAL PERSPECTIVE: These summaries become repetitious and perhaps boresom, but we must maintain our historical perspective.

Historians generally consider that the Dark Ages - the age of barbarism, of medievalism - commenced with the fall of the Roman Empire in 476 A.D. and ended with the French Revolution when the Feudal Age blew itself up. The conclusion is premature. If we assume that one of the characteristics of an enlightened civilization, (the "Golden Age" of Greece, for example), is the intellectual emancipation of the individual and his right to act freely in accordance with his enlightened views, then we are, in fact, moving still deeper into a Darker Age, with total annihilation through the H-Bomb at the end of the road because our people dare neither think nor act. In the process our Declaration of Independence and the Preamble and Bill of Rights of our Constitution, which promised emancipation for our people became, historically, a minor, brief, futile episode, and a defeat in the evolutionary process of the race.

II. "HAVES" vs. "HAVE-NOTS": Much of the hatred and violence in the world - international, national and individual - has arisen out of conflicts between the "haves" and the "have-nots", under economic conditions of scarcities - of never-enough. These economic concepts have become obsolete under the impact of the great revolution of abundances created by technology and automation. If we grasp the opportunity, this abundance can be transformed into abundances for all of the peoples of the world so that no one need ever go hungry again. The barbarisms of man's inhumanity to man might be reasonable in a world of scarcities, under the urge to survive. In a world of abundances they become an obscenity, (for the religious, a blasphemy against Almighty God!). History records no act of stupid barbarism to equal our practice of dumping abundances into the ocean while people starve. Ours becomes the BARBARIC AGE OF THE "FAST BUCK!".

III. BARBARIC "OVERLORDS": The modern equivalent of the barbaric overlords of the Dark Ages are present in force. To replace Louis XIV and the Bourbons we have the Forty Thieves of Wall Street promoting their systems of world-wide economic feudalism, their base of operations in the United States and their branch offices in London, Paris, Brussels, Rome, Madrid, Bonn. These are the modern "men without a country", for they yield patriotic loyalties to no political state.

At the time of the French Revolution, backing the Bourbons were the barbarians of the Papacy, whose iniquities were so shocking that even the lowly Roman Catholic priests rejected them to support the exploited peasantry. These same unrepentant forces of Vaticanism, of Jesuitism, now back the barbaric Forty Thieves and their cohorts, in even greater violences against the people, against human liberties, and against civilization itself. Once more the lowly priests and Roman Catholic citizens are torn between the cause of righteousness, and loyalty to the barbaric leaders of the Vatican who hate the people.

These partners-in-crime, the Forty Thieves and the Papacy, who make common cause against the people and who are now faced with the imminent collapse of their feudalistic world, can say with Louis XIV of France: "After me, the deluge!".

IV. BARBARIC GOVERNMENT: Our government, as discussed in earlier News Notes, has become one of perjured outlaws, each sworn to defend the Constitution, but each abdicating his authority to the dictatorship of the Forty Thieves and the Jesuits. The process of destroying the fruits of the American Revolution commenced during the early colonial period. More recently, Woodrow Wilson and the Congress, in 1913, abdicated the power of the government over the financial system of the country into the hands of the Forty Thieves, operating through the illegally-created Federal Reserve Banks which constitute a gigantic counterfeiting ring which prints counterfeit money upon which the people are required to pay usurious rates of interest, and which has carried the country into bankruptcy. In California the Bank of America (formerly the Bank of Italy), reportedly acts as financial dummy for the Vatican.

Herbert Hoover, Sr., High Priest of this pagan economic cult of usury and grand larceny of the Forty Thieves, betrayed the people with empty promises of chickens in every pot and cars in every garage, even as the tornado of

violent depression began to sweep away the securities and even the very lives of countless millions. (His son, Herbert Jr., acolyte of his illustrious father, according to Drew Pearson, advanced the fortunes of Standard Oil in Arabia within the very portals of the State Department.).

Franklin D. Roosevelt, acting as receiver in bankruptcy for the Forty Thieves after 1933, restored them to power at the cost of some sixty billions of dollars sweated out of our taxpayers, and when that proved ineffective, conspired to involve the United States in World War II to enrich them beyond the dreams of a Midas, at the cost of the blood of millions.

Harry S. Truman, apprentice puppet of a criminal political machine in Missouri, and established in professional status as puppet of the larger crime ring of the Forty Thieves and the Jesuits, committed, in the bombings of Hiroshima and Nagasaki, the most vicious single act of barbarism, of mass murder, in the history of the world; launched the murderous Korean War for the same gangsters; and today, like "Little Jack Horner" of the nursery rhyme, struts before the world boasting of his exploits and exclaims, "What a brave boy am I!". As with Wilson, Hoover and Roosevelt, a collaborating and subverted Congress countersigned the blank check.

Dwight D. Eisenhower follows in their footsteps, introduces the H-Bomb as his single plank in government; races neck-and-neck from brink to brink of disaster with Luciferian John Foster Dulles; delivers the last resources of the people to the plundering Forty Thieves as fast as his pen can scratch his name; and like Truman, sticks his thumbs into the same mess of violence as he grins disarmingly and proclaims "What a spiritual boy am I!".

John Foster Dulles, trigger-man for "Murder, Incorporated", ambidextrously ballances his loyalties to the Forty Thieves with his loyalties to the Jesuits, as he rushes all over the world seeking alibis for his unwillingness to disarm. And let us not forget Sherman Adams, "Assistant to the President" in this sell-out to the barbarians, the "Fagin" of the administration who teaches the boyish, immature (so they would have us believe) Eisenhower all of the tricks of the trade of outlawry.

In the light of these established facts (documented day by day by Drew Pearson), not a man in top executive office from Eisenhower on down, not a member of Congress, not a member of the Supreme Court, not an admiral or a general in the Pentagon, but has perjured his oath to defend the Constitution. Ours is an outlaw government, of, by and for outlaws, not for the people. The major difference between the outlawry of a Ghengis Khan and the outlaws who pillage our country is that Ghengis Khan and his hordes galloped on horses and risked their lives openly in their depredations, whereas the latter ride in solid gold Cadillacs and work in secret like moles burrowing underground, just as moles burrowing underground have killed the beautiful roses in my garden by destroying their roots.

V. CIVIL LIBERTIES: The current debate in Congress over the civil liberties bill is a case in point on the domestic front illustrates the descent into barbarism. The primary purpose of the bill is to amend the Constitution by Act of Congress, to deny millions of our citizens their constitutional rights clearly defined under the Bill of Rights, at the instigation of frightened, barbaric Bourbons of the Deep South, Baptists (for the most part) calling themselves "Christians", who are determined to establish the point that their "God" did not intend Negroes to be full citizens of the United States. A government and a people dedicated to the principles written into our Charters of Liberty would not demand an illegal act of Congress to define and limit the area in which the Constitution is applicable, to keep millions at the level of peasantry. A PUTRID PACKAGE OF TREASON!

VI. ASSASSINATION OF PRESIDENT ARMAS OF GUATEMALA: The assassination of President Armas of Guatemala illustrates as putrid a package of treason on the international front. The prior government of the country was established legally by the democratic vote of the people. Its attempts to serve its own people were displeasing to the United Fruit Company and thus to the Forty Thieves, and particularly displeasing to the Jesuits. So a conspiracy was hatched in our State Department, under the guidance of the Luciferian Dulles, and manipulated by our Ambassador Peurifoy and the Papal Legate; the government of this friendly state was overthrown by force and violence from without; and Armas was set up as puppet of the Forty Thieves and the Vatican amid the cheers of our barbaric, immoral press. Now Armas and Peurifoy are dead, the first at the hands of an assassin, and the other as a result of a motor accident (planned?) in Indo China. They lived by the sword and perished by the sword. But what of the prime movers....the Papal Legate....the Pope....the Commanding General of the Jesuits....and Dulles....and Eisenhower....and the President of United Fruit....and all of the Forty Thieves....and the Generals in the Pentagon....all of whom had a hand in the violences? Their time, too, will come, under the invariable law of compensations, of Karma.

VII. GREAT WEST POINT U.S. MAIL ROBBERY: The incident of the robbing of my mail at West Point during the recent graduation exercises fits into this picture of barbarism. The case, so I am informed, is still under investigation. But what of honored classmates who know of the crime and still remain mute? What of the committees of Congress - Armed Forces and Postal - which have been informed of the crime and remain inert? What of the Pentagon, of the Attorney General, of the White House? One would presume that if a robbery of the U.S. Mails occurred they would show mild interest, and even concern. We learn again that if you want to commit a crime, don't steal a loaf of bread. Be elected or appointed to high government office where you are covered with a cloak of "top secrecy", and with immunity commit a big crime. Two, three, four, or even five stars on your uniform would extend the immunity. As you will remember, these military men who laugh at robbing the U.S. Mail were the same ones, in principle or as individuals, who forced the discharge of practically all members of the West Point football team a few years ago, for the relatively minor offense of cribbing on examinations. "Old Grads" reiterate from generation to generation that "West Point has gone to Hell!". It isn't West Point that has gone to Hell - it is the Old Grads.

Small wonder, then, that as I watched the fine young men of West Point passing in review at the evening parade, marching with the perfection of automatons, the macabre thought flashed through my mind that under each "tar bucket" hat with its pompon I saw a grim, fleshless, death's-head....row upon row of them! A shudder passed over me.

VIII. HOPI INDIANS: These, too, play a role in the great drama of barbarism. In the clean, bright desert air of Arizona you will find a true civilization - a spiritual island in the midst of the surrounding environment of corruption and barbarism. Through a strange manifestation of Destiny, somebody in Washington has "goofed" since our government was founded, with the result that the Hopis now emerge as free and independent as they were when Columbus discovered America. Today they make a heroic stand, hoping in vain for righteous action by our govt. which has rejected righteousness, prepared to submit the issue of their sovereignty to the United Nations, and relying, as in the past, upon the Great Spirit which has brought them, without wavering, down the long trail. Barbaric "Christianity" might learn a lesson in spirituality from this civilized people. I enclose a copy of my letter of July 24, 1957 to Eisenhower on this issue.

IX. ANTI-SEMITISM: Correspondents frequently remonstrate with me that I waste my time fighting the Jesuits and the Papacy when I should be turning my attention to the Jews who are, so they say, the real danger to the United States. The literature which they enclose, well-printed and in great supply, from the so-called "Protocols of the Learned Elders of Zion" (proven forgeries), to the sheets issued by Gerald L.K. Smith, attest to unlimited financial resources.

I carry no torch for Jews, as Jews. I carry a torch for liberty and justice under our Constitution for all of our people regardless of race, creed or color.

This test I apply to Anti-Semitism. I go on record as stating that in all of my life and within my considerable experience I have never discovered any documented or other reason to show that Jewish citizens of the United States cannot be, or are not, loyal to our Constitution. I find no force within their ranks, at home or abroad, comparable to the forces of the Papacy and the Forty Thieves, attempting to interfere, by subversion, with our internal and international affairs. I find no justification, in reason, for the emotional, irrational, double-distilled venom being injected into the minds and blood stream of our people to cause them to hate the Jews. I consider this campaign of hatred to be of such wickedness as the world has never known, and the product of diseased minds.

As one concerned about national unity of all of our people, I necessarily search for causes. This is no limited campaign of hatred instigated by a Gerald L.K. Smith or a Ku Klux Klan, on their own initiative. This goes far deeper. If we read our History clearly we see the plot exposed in Hitler Germany, where Hitler was placed in power by the Forty Thieves, with the fine Italian hand of Pius XII and the Jesuits operating behind the "purple curtain", with terror and death for the Jews set up as scape-goats the end result. To relate this divisive campaign of hatred of the Jews to the Vatican is, therefore, logical, and consistent with their teachings of "divide and rule", preliminary to the establishment of a world theocracy under the Pope (Jesuits), which can be accomplished only if all other religious or political "heresies", whether Protestant, Jewish, Mohammedan, Greek Orthodox, Communists, United Nations, or other, are destroyed.

I warn our people against participation in this campaign of hatred. The same terrorism and death can happen here. It has already happened to many. You may be next!

XI. "HOOVERISM": The power key to the current Dark Ages is epitomized in the word: "HOOVERISM". The barbarisms of the Middle Ages were accomplished within the established legal order; "the King can do no wrong!" - "the Divine Right of Kings", "with benefit of Clergy" (the Vatican). That legal basis was destroyed by the Reign of Terror of the French Revolution. The present Dark Ages, on the contrary, has been imposed upon the people in violation of the law and order established by our Constitution, accomplished through violence and threat of violence, physical and psychological, which have turned the United States into a fear-saturated nation of moral cowards as happened in Hitler Germany.

At the center of the web of subversion-through-fear we find one J. Edgar Hoover, head of the FBI - the U.S. Gestapo, drawing his inspiration from the Jesuits, open enemies of the freedoms written into our Charters of Liberty, from whom he has accepted many honors and who quote him as a High Priest of their "religion" of subversion; promoting their philosophies of psychological violence; infiltrating their secret agents into the FBI; establishing a "black list" of respected organizations which the Jesuits (not the Constitution) classify as "subversive"; placing on such "purge lists" the names of patriotic citizens dedicated to the freedoms established in our Charters of Liberty; hounding such individuals out of government and civil employment thus destroying the economic basis for themselves and their families; assassinating their reputations with cynical disregard for "due process" required by the Constitution; participating in "murder by administrative act" against such individuals; instilling fear even in members of Congress whose private lives are not immune to his illegal acts; tapping telephones and violating U.S. mails by illegal "searches and seizures" to obtain his information; funnelling such information to Congressional "UnAmerican" Committees which permit themselves to be used as hatchet-men for his conspiracies; accomplishing all of this under color of defending our people from "Communism" in order to betray them to "Jesuitism".

There could be no "McCarthyism" without "Hooverism". McCarthy is dead, but J. Edgar Hoover is still much alive to continue his subversion of Constitutional guarantees of personal freedom, doing violence to every basic concept of true "Americanism" for which our soldiers have given their lives, and promoting (on the soil of a "free America") the sadistic philosophies behind the Spanish Inquisition.

Mark him well. Here is a public enemy who is a "prime mover" in the strategy of the Forty Thieves and the Jesuits to plunge the country into a Darker Age of ignorance, fear, totalitarianism and repression. But let J. Edgar remember that in the time of violence and counter-violence which - but for an Act of God - will surely occur, purge lists and counter purge lists will be prepared on the pattern of the Reign of Terror, on all of which his name will surely appear high in priority. He is a man to be pitied, for if history repeats itself, he hasn't a chance.

XII. "CLEANING UP THE MESS": Many ask for my constructive solution to save us from the ominous dangers which I predict. Solutions can easily be found if our people ardently desire to return to fundamental principles of law instead of by outlaw. During the past 30 years I have developed a detailed program, within the principles of our Constitution, which I hope to be able to present at a favorable opportunity. It is useless to do so as long as the people still like what they have in the way of bankruptcies, corruption, and H-Bombs. A brief summary is available in my pamphlet, "BLUEPRINT FOR ECONOMIC DEMOCRACY", available for \$1.00.

XIV. APPRECIATION: I thank my correspondents for their generous response to my request for financial assistance to enable me to carry on this work. Without their assistance I would be immobilized. I contribute my personal efforts as a matter of duty under my oath to defend the Constitution. Each one can help in the distribution by requesting copies with contributions made. Continued financial assistance is necessary.

Yours for a "Golden Age" of emancipation,

Herbert C. Holdridge
